

The View from the Top Network: “Brilliant... refreshing... it was so great I could have stayed there all day.” Just some of the things women have been saying about the View from the Top lunchtime networking.

Make no mistake, this network is not just another talking shop, it is an opportunity to *do business* with other women. Bring your business cards, take away information and samples. All women welcome, whatever your business.

Giving her “View from the Top” this month is:

Marcia McKerrow

Discover Your Best Consulting Ltd

“Personal Effectiveness – Moving from A to B”

As a business woman who has grown her business from a home-based operation to her move last year into prestigious city centre premises, it’s certain that Marcia knows a thing or two about moving from A to B.

If you’ve ever felt as though you’re treading water, wading through treacle, or spinning round in circles, when what you really need is to take some clear steps in the right direction, then Marcia’s tried and tested techniques could be just what you need to help you get started or to overcome the barriers you face.

With an MSc in Mentoring and Coaching, Marcia delivers personal development consultancy to individuals and to organisations in the private and public sectors, through her business Discover Your Best Consulting Ltd.
